

To Mia cares

29 June 2018

My name is Sahara Vaughn, I live in Hillaby St. Andrew with my mummy. I go to School at George Lanning Primary School. I am six years old.

I heard it on the radio people talking about the sea weed and I have a great idea for my country Barbados.

I would like to go to the sea but the sea is full of sea weed if we can get some nets with fine holes that only the sea water can pass and not the sea weed, we will be able to take a dip in the sea and enjoy our lovely beaches.

The sea weed will go to places where we can't swim in the sea, people that have farms can collect it and mix it with dirt for plants.
